Yes, she was a CA, better what I do plain
Ask me what I do, I told her that I like to create
Said she wanna be I, don't remember, but told her
leave your number
Then maybe we gonna be late!
To the back and forth, I pick her up like...
Get to know each other until we could be late
Don't be late, I don't wanna debate
I just wanna talk about how we...

... gonna sip on champagne
It's gonna be our dance, come on, hop on the plane
Gonna touch the sky and watch the clouds go by
And if you're scared of heights, no seat shall... up high

Pre-Chorus:
We could go anywhere,
Any place and I'll take you there
And I don't worry or care
All we got is love to...
We could go anywhere,
Any place and I'll take you there
And I don't worry or care

Chorus: f
Let's fly away!
Let's just go, go, go!
Let's get out of here!
We gonna fly, fly, fly
And touch the sky, sky, sky
All the haters here, gonna say goodbye, bye bye

Goodbye (I just touch the sky)
I say goodbye (I just touch the sky)
(Touch the sky, touch the sky
Throw your hands in the air, set them wave them up
high)
Goodbye, goodbye (I just touch the sky)

I'll take you higher on top of the world
No one can stop us, it's just me and my girl

No one can touch us here, up in the atmosphere
Don't gotta be afraid... what people say

Pre-Chorus:

We could go anywhere,
Any place and I'll take you there
And I don't worry or care
All we got is love to...
We could go anywhere,
Any place and I'll take you there
And I don't worry or care

Chorus:

Let's fly away!
Let's just go, go, go!
Let's get out of here!
We gonna fly, fly, fly
And touch the sky, sky, sky
All the haters here, gonna say goodbye, bye bye

Come on and take my hand, I'll show you something
new
Cause when it's you and me, there's nothing we can do

Oh, let me take you out, let me take you out
... get to throw it up...
I got to do it now, do it now let's...
Watch out, caught your way, and yes, yes, we know...

Take you in the sky tonight, I'mma take you to the sky
tonight
Teach you how to fly tonight, then you even gonna
touch the sky tonight

Chorus:

Let's just go, go, go, get out of here
Let's just go get out of here
We gonna fly, fly, fly
And touch the sky, sky, sky
All the haters here, gonna say goodbye, bye bye
