Evacuate the earth  
What else can we do?  
Evacuate the earth  
Time is running short

No time for repentance, no time for regret  
Just leave this forsaken ground  
The dream about the utopia  
Is just an inversion of the truth

Succumb the horror  
Invoke the end

Evacuate the earth  
End all while you can  
Evacuate the earth  
Do not postpone your fate

Leave all the chaos, leave all the turmoil  
Leave this carcass called earth  
When all hope is lost, close your eyes  
And fall into the illusion

Succumb the horror  
Invoke the end
