You treat animals for food and clothes  
But none of you are starving or freezing  
In the most horrible ways you torture them  
Just to get that little piece of information

You stupid fucks!  
What the fuck have you done  
that makes you so superior?

Millions of animals suffer and die  
In test which results are slanted  
Can't you see that all these tests  
Have no relevance for human needs?

You stupid fucks!  
Why can't you see that  
it's all coldblooded murder?!
