From the highest tower  
You pull the puppet's strings  
While you command your slaves  
Someone is watching you

You're enslaved, you're their slave  
They dominate your fate  
When all is said, you're a living dead  
They dominate your fate

All that massive power  
You're just another hog  
Sucking up to the master  
While feeding from the trough

You're enslaved, you're their slave  
They dominate your fate  
When all is said, you're a living dead  
They dominate your fate

Your stink suffocates me  
Your stink suffocates me  
Suffocates me

They dominate your fate  
They dominate your fate  
They dominate your fate  
They dominate your fate
