Verse 1

Turn out the light, I closed my door and thought about
leaving this world.

There's too much to do and I'm confused. I can't go
anymore.

Pre-Chorus

An angel said to me something very sweet. I needed to
hear, my dear

An angel spoke to me and sat on my knee as she
whispered to me.

Chorus

You could have it all

Verse 2

I sat alone with my head thinking through life and
through death.

But I'm alive, yet overwhelmed. So what should I do?

Bridge

Hold on, I'm holding on to one day at a time and make
it mine

Make it, I'm making it. An angel stopped my fall to give
it all
