I never saw this coming. I barricaded you good.
Your debris hit me hard. The day you dropped your
atomic bomb
And I was covered in agony and I could hardly breathe
Did you say your leaving me? I think I heard you say
your leaving me
And I can hardly breathe. Embarrassed hopelessly.

So stand up and look proud
And pull yourself together
I'm sure she broke your heart, but you will get over this.
I'm so over this (I'm so over you)

I can hardly breathe. Embarrassed hopelessly
And I can hardly breathe. Embarrassed hopelessly
