1. Can you hear me?  
Are you far away and distracted  
Or afraid of what I might say  
Cuz I know your every move  
I can see things  
That you walk right through  
And I listen to the lessons lost on you  
In your race to escape the truth

[Chorus]

But I would be the one to break you open  
Make you come undone  
And I would be the one to turn you over  
Let you see what you've become  
Cuz there's something in you  
That's dyin' to come alive  
But you're happy hangin on  
Just getting by

2. Has it faded?  
Are you bored with the life you've created?  
Would you sacrifice yourself  
To protect everything you own?  
'Cuz it seems to me  
That the more you have, the more you want  
And the less you understand  
How to love and let things go

[Chorus]

3. 'Cuz it's easy to ignore  
'Till the walls around you shatter  
And nothing seems to matter anymore

Now you're stranded  
But you'll stand your ground  
Empty-handed  
Cuz it hurts to turn around

[Chorus]
