The beauty of the dark, is the beauty of you.
I dream of dreamind dreams of you but nightmares
always block the view.
I can't sleep, no.
The beauty of silence, is the noise of no words
When everything I listen for is here when you walk in
the door,
tonight, yeah.
Where is the light in your deep dark room?
A shock of light could save you from the shadow.
Why is the dark behind the moon?
Out of reach until the light is shattered.
The ugly thing I do for beauty.
If you could see what's real in me, then maybe beauty
wouldn't be so cruel.
Where is the light in your deep dark room?
A shock of light could save you from the shadow.
Why is the dark behind the moon?
Out of reach until the light is shattered
The beauty of the dark. Yeeeeaaaah.
The beauty of the dark is the beauty of you.
Where is the light in your deep dark room?
A shock of light could save you from the shadow.
Why is the dark behind the moon?
Out of reach until the light is shattered.
