(Acoustic Version)

Wake up

Look me in the eyes again
i need to feel your hand
upon my face

Words can relay nice
And they can cut you open
And then silence surrounds you
and holds you

I think i might of inhaled you
i can feel you behind my eyes
you've gotten into my bloodstream

i can feel you flowing in me

Words can relay nice
And they can cut you open
And the silence surrounds you
and holds you

I think i might of inhaled you
I can feel you behind my eyes
You've gotten into my bloodstream
I can feel you flowing in me

I can feel you behind my eyes
I can feel you behind my eyes
I can feel you be

I think i might have inhaled you
I can feel you flowing in me
