Still can't believe it, can't stand to leave it
But I know the rules
We were doomed babe, too much too soon babe
Acting like fools

Tried to fly but we climbed too high
We saw it all, we had to fall
But I swear it's true, was all for you
I swear it's true, was all for you

Making love all the time
Never let a day go by, or a night
Sweet music in the dark
You always found the spark to light my light

Tried to fly but we climbed too high
We saw it all, we had to fall
But I swear it's true, was all for you
I swear it's true, was all for you, all for you

The only one babe to ever break my heart
Was you, such a shame
Though guys never cry, but that'll be the day I die
Speaking your name

Tried to fly but we climbed too high
I saw it all, we had to fall
But I swear it's true, was all for you
I swear it's true, was all for you
I swear it's true, was all for you
I swear it's true, was all for you

All for you
All for you
All for you
