Don't you believe in me now?
Now that you found a new friend
Anything goes but the truth
Messages we never send

Anything goes when the angels sing
Dance on volcanoes, wait see what tomorrow brings
Better off dead, better off dead, better off dead
Than your ass in a sling

Why can't you open the door?
I got the key in my hand
I guess we're breaking the law
I guess I don't understand

Anything goes but I must refuse
Show me some action
Wait 'til you see the news
Better off dead, better off dead

What is the problem here
Get with the program, why do you stand accused?
Better off dead, better off dead, better off dead
Like to see you walk a mile in my shoes

What is the voice we don't hear
Is it still talking to you?
I hope it's speaking real clear
I hope it's pulling you through

Anything goes, but I have to be fair
Teach you a lesson
Wait 'til I know you care
Better off dead, better off dead

Come and dance in your wheelchair
Show me some traction, let me know when you get
there
Better off dead, better off dead, better off dead
Keep all your love in your head
