You know I'm rollin', you know I'm coming through
Hear me howlin', catchin' up on you
Station to station, beating up the track
Check on your time, 'cos I ain't never coming back

You know I'm loaded, railroaded
I'm a explosive, I'm a locomotive

I'm your engineer, looping up the curve
Stoke up your fire, babe, burning up your nerve
You know the story, you know that I can't fail
Power and glory, burning up the rails

You know I'm loaded, railroaded
I'm a explosive, I'm a locomotive

Roll you all night babe, I'll drive you round the bend
Broke down engine fired up again
Ain't got no brakeman, got no mail to drop
Rollin' forever, never gonna stop

You know I'm loaded, railroaded
I'm a explosive, I'm a locomotive
