Knew I had to bite you, baby when I first laid eyes on
you

That moment turned me on, I can't believe it's true
And I like to watch your body sway
I got no choice, I'm gonna twist your tail

Love me like a reptile
Love me like a reptile
I'm gonna sink my fangs in you

Thunder lizard, stony eye, you got me hypnotized
Hot tongue breaks in and out and I can't believe my
eyes
And your soft, white belly next to mine
Scaly baby, see you shine

Love me like a reptile
Love me like a reptile
You're murder in disguise
Black mamba, murder in disguise

Baby, you're a rattlesnake, you know the way I feel
Feel you pulling up my back, you've got no love to steal
You know I've got my eyes on you
You're petrified, gonna stick like glue

Love me like a reptile
Love me like a reptile
Shock you like an electric eel
Shock you like electric eel, oh
