shes my cosmic girl  
shes my cosmic girl  
shes the one for me, me  
yeah shes the one for me  
shes my cosmic girl  
shes my cosmic girl  
shes the one for me, me  
yeah shes the one for me

shes my cosmic girl  
we could survive if we lost this world  
we would reside on a place in space  
satellite fly like I incase  
i lost the part that sparks this taste  
sharp clothes and kicks she would free place  
it with and upgrade reboot and update  
dance in the sky is guess its an up-date  
shes got me dancing on stars  
my twinkle toes surpasses by far  
hers drip and blazes my drape and jordans  
but we own the same pairs of court fours  
ofcourse star wars arise  
we collide like asteroids in the sky  
know sure a shooting star passes by  
were fighting 'cause id rather die than lose my

shes my cosmic girl  
shes my cosmic girl  
shes the one for me, me  
yeah shes the one for me  
shes my cosmic girl  
shes my cosmic girl  
shes the one for me, me  
yeah shes the one for me

shes just as fly as I  
with a swagger like me  
swagger like he  
not a swagger like me  
shes sees past that swagger on me  
im more than a name in the ends  
she dont be complaining to friends

treat like a diamond found beneath space rock  
one of a kind shes bound to be chased but  
its her though shes definitely passed her  
left from the scent and the sound of her laughter  
one day i'll ask her that question most girls are after  
so i can hole her heart for aslong as i wish  
all i need is a hug and a kiss (come here then)  
il be fighting fot the rest of the night  
i wish her to stay for the rest of my life  
'cause she looks amazing sood by herself  
but she looks the best by my side

shes my cosmic girl  
shes my cosmic girl  
shes the one for me, me  
yeah shes the one for me  
shes my cosmic girl  
shes my cosmic girl  
shes the one for me, me  
yeah shes the one for me

i know she wants me i no she loves me  
thats why our love is out of this world  
she flies beside me we fly at high speeds  
thats why shes my cosmic girl  
i know she wants me i no she loves me  
thats why our love is out of this world  
she flies beside me we fly at high speeds  
thats why shes my cosmic girl

shes my cosmic girl  
shes my cosmic girl  
shes the one for me, me  
yeah shes the one for me  
shes my cosmic girl  
shes my cosmic girl  
shes the one for me, me  
yeah shes the one for me
