There's a sentry in a uniform to watch the VIPs along  
the hall  
Strategical discussions taking place behind the steel  
plated wall  
The agents issue the statements to the waiting press  
who circulate the words  
Justification, propaganda, Western foreign policy  
across the world

Chorus:

In the name of the people  
All of this is done in the name of the people

They read their books and study hard, cigarettes lit in  
the claustrophobic gloom  
West of the University Road, the world outside is ghost-  
like in the room  
Frustrated and impatient and intelligence sharp and  
twisted like a child  
Death is an aphrodisiac now, the fuses on the table  
slowly wired

Chorus:

In the name of the people  
All of this is done in the name of the people

Hold me tight, hold me fast  
Standing here on the wrong side  
Of this bullet-proof glass  
There are no questions left for us to ask

It's soldiers night at the discotheque, pick up a girl and  
drink to home afar  
Spending money like water on the watered drinks  
available at the bar  
The ones who never were given much, never asked  
much of anything in recall  
But there's a black bag in the corner and it doesn't  
belong to anyone here at all

Chorus:

In the name of the people  
All of this is done in the name of the people
