Dear Justin, I know it's been a long time
Remember all those nights we spent sitting up talking
in your front room
About leaving this worn out world and starting again
far away in a better place
Well that's where I am now - but still thinking about you

Chorus:

I'm never going back there
I'm never going back to the bad old world

I was travelling with Laurel way up on the north coast
She's got family living up here in a nearby town
We found a piece of land that looks out towards
The north sea islands across the bay
And the sun is shining on the water today as I look out
of our front door

Chorus:

I'm never going back there
I'm never going back to the bad old world

Are you still scared of the future? Well, that doesn't
surprise me
You could come up and stay here a while, back off
from the killing wheel
I used to think it was me who'd somehow sold out
Or given in on some almighty cause,
But what difference would it make? It feels good to be
out here.

Chorus:

I'm never going back there
I'm never going back to the bad old world
