We follow the taillights out of the city  
Moving in a river of red  
As the colours fade away from the dusky sunset  
We roll for the darkness ahead

Chorus:

We are old, we are young, we are in this together  
Vagabonds and children, prisoners forever  
With pulses a-raging and eyes full of wonder  
Kicking out behind us again

Night-time City Beat the radio is calling  
The lost and lonely in vain  
Out here we are running for the wide open spaces  
The road-smell after the rain

Chorus:

We are old, we are young, we are in this together  
Vagabonds and children, prisoners forever  
With pulses a-raging and eyes full of wonder  
Kicking out behind us again

And watching as a boy alone at the quayside  
The ships loading cargo in the night  
Their names all calling to faraway places  
The years go past, the miles go by  
And still this childhood romance will not die
