Don't you stop it don't you stop it now

It's so hypnotic what you do to me

I just can't seem to let go

Caught in a trance and I can't get free

You're calling me to the floor

Pre-chorus

I get hooked when you drop a needle in the groove

You make my body shake shake I can't help but move

You're quite the spectacle

What can I dooo

Chorus

You got me addicted

I left my heart out on the floor

I'm all twisted

The music's got me begging for more

I come alive (come alive) while you kill me here

Don't let it die (let it die) if the end is near

I raise 'em high (raise 'em high) cause I have no fear

You got me addicted (ohh) addicted (ohh)

I've never felt this way before

You've got me under your control

It's like my body's got a mind of it's own

You must be supernatural

(Pre-chorus)

(Chorus)

What can I do what can do

When I need you now (need you now)

What can I do what can do

When I got to have it now

(Chorus)
