I remember that first day  
You were standing with a miniskirt  
I couldn't help it I had to look back  
And I felt that I was going to die  
No blood pressure in my head  
With my eyes staring at your legs  
And my mind was somewhere else  
I can't tell you what I want to do.

Let me be the one in your bed  
I want to be the one that touch you right there  
I want to sleep with you every night  
I want to sleep with you every day

The next time that I saw you  
You were getting ready to go out with your friends  
Getting naked to jump in the shower  
But I was watching from my place  
All my blood went down again  
And didn't know what to do with myself  
In just a minute a found a solution  
But I won't tell you the conclusion

Let me be the one in your bed  
I want to be the one that touch you right there  
I want to sleep with you every night  
I want to sleep with you every day  
Baby let me come...  
Let me come... to your house tonight.  
Let me be the one in your bed  
I want to be the one that touch you right there  
I want to sleep with you every night  
I want to sleep with you every day

I want to be the one
