I caught myself thinking the wrong way
Feeling that my life was wrong and worthless
I looked around to try to find something
Something that would get me out of this nonsense
Is not that I don't feel it coming
It's just that I can't sit and wait forever
The world is moving and so should I
Before it's time for me to say my last goodbye

Hey! have to enjoy the ride fuck the frustration
Hey! I'm speeding down the road to my final station
Hey! You are going to get there too.

I realized that life is short now
There's no time for me to fall or slow down
That I am lucky to be here
And nothing is bad enough to burst in tears
It doesn't matter rich or poor
It's always going to take us to the same detour
I can't feel down again
It's time for me to wake and see

Hey! Have to enjoy the ride fuck the frustration
Hey! I'm speeding down the road to my final station
Hey! Have to enjoy my life fuck the frustration
Hey! I'm speeding down the road to my final station
Hey! Have to enjoy the ride fuck the frustration
Hey! I'm speeding down the road to my final station
Hey! You are going to get there too.
