It's not you, it's me  
It's true you see  
I always wanted it to be easy  
Just to please me  
I feel trapped when I'm not slapped  
But I'm not sleazy

I got to got to go  
I can't be with you tonight  
Honey now you know  
That it's black and white  
Let's stay in touch  
It's been fun  
I'm in a rush  
I gotta run  
I'm just about getting out  
On my own tonight  
X2

It's running late you know

It's time to go  
I found what I've been looking for  
I can't rest, I want your best  
(I'm not ashamed)  
Let's start the game

I got to got to go  
I can't be with you tonight  
Honey now you know  
That it's black and white  
Let's stay in touch  
It's been fun  
I'm in a rush  
I gotta run  
I'm just about getting out  
On my own tonight  
X3
