How do you slow this thing down?
How do you make this thing slow down?

We tried to break by saying
'Must be some mistake'
Problem unsolved
We said don't make me get involved

How do you slow this thing down?
How do you make this thing slow down?

We tried to slow
It down by shrieking
'No, no, no'

We tried to halt
By whimpering
'It's not my fault'

How do you slow this thing down?
How do you make this thing slow down?

It's not fair
We've tried all kinds of prayer
We've tried science
It's fed up on defiance.

How do you slow this thing down?
How do you make this thing slow down?
