Featuring The Letter K

Sometimes good girls choose to act bad
Sometimes big girls just give good head
That's why I pimp , drink fooze , all praise
You lames the man she glad you payin
So she can come pay and and come get her chance
To be with the izzle might pimp in advance
She gave me Jackson 5 she get one more chance
To get with a trick and gon' do what she can
Break now his mind like a leg in a can
Turn slow don't move it happened so fast
Do game on a fool now she bring that back
Hold on , must say bitch whole run that cash
She get to see me if for that she is glad
Never ever had a pimp like this
Never ever trip send for shit
Only thing I know is go get
While I figure out who this hoe is
She just tryin' to choose take her from the cruise
Must I offer izzle women can't refuse

[Hook]

I can't come where the streets call
You can feel the pain in my soul
Niggas money short of damn leprechauns
We just try to find a pot of gold
All these bills stacked up
And women line still backed up
They always ask me why I stay
Grinding , I never have enough

Alright, south side
'Bout time I'm still in this bitch
Won't lie , you fine
Might as well hang with the kit
You should see the way that I live
Back when I didn't have shit
Back when I was there broken and naked
Might as well bring a casket
Now they all love you 'cause you that shit

Now they all want you 'cause you that real
Back when a nigga used to be a peon
They don't even wanna try to let him hit
Oh well, I'm so real
Now they all on my cocktail
Used to see me and throw a addle
Now they ask me to blow else
Ain't it funny how the game change
When you social status ain't the same cane
Used to see jail and poverty
Like nah man I want the same thing
Mama work 2 jobs, we at hoes and our two socks
But I still made it out thanks to rap
RIP BIG and 2pac
I never contemplated suicide
Specially when I saw suicide
Doors on the ride like I'ma die
Nah baby girl I'm too alive
Letter K know the license plate
Kinda hard to visualize this way
Where you come from where I come from
You don't wanna pay the price I pay

[Hook x2]

I can't come where the streets call
You can feel the pain in my soul
Niggas money short of damn leprechauns
We just try to find a pot of gold
All these bills stacked up
And women line still backed up
They always ask me why I stay
Grinding , I never have enough
