I'm the 858 already star  
Feeling like I can hit every broad  
I'm plugged with the mob got a grace of God  
Blessed with money and the power so ungrateful God  
She and her girl in like oh my gosh  
The izzle king is here girl oh my gosh  
I swear the pimp the truth so help me God  
Your girl is good as you so let's mÃ©nage  
I call that hoe masushi ye the best massage  
I be pimpin' 3D like I'm Chris and John  
Magnificent macking like my melon shine  
She easy choose a player when the rest is mine  
She ain't in no need to act or shine  
It's cool to say that you got mac and shine  
Old street turn that girl into a freak  
Now honey building ain't got nothing cheap  
Close leash she be choosing on a peak  
Damn X man what these bitches want from me

[Hook]

If you is a p , then let the pussy preach  
Then let the pussy preach ,then let the pussy preach  
If you is a p , then let the pussy preach  
Then let the pussy preach ,then let the pussy preach  
If you is a p , then let the pussy preach  
Then let the pussy preach ,then let the pussy preach  
If you is a p , then let the pussy preach  
Then let the pussy preach ,then let the pussy preach

We headed after party at the house of blues  
Never force your pimping let the women choose  
If she don't pick this pimping then this bitch will lose  
She is intercepting we got different views  
Oh, there go fast and bird with 'em  
It's Mac and might got got some hoes with 'em  
And Banks this cyfe is smoking bud with 'em  
We can't lose we is above winning  
Draw the cathedral hoe we love women  
It's freaky as hell then give us some head  
To get in bed and just represent  
Do what she can to respect a pimp

Flaming that hip pouring that punch  
Taking a shit, taking a shit  
She be the one that's taking that trip  
These goofy ass mars don't know what they're doing  
That pillow talking man, what the fuck you're doing  
Them hoes will tell the people what the fuck you doin'  
I gotta fix this game is it fucking ruined

[Hook]

If you is a p , then let the pussy preach  
Then let the pussy preach ,then let the pussy preach  
If you is a p , then let the pussy preach  
Then let the pussy preach ,then let the pussy preach  
If you is a p , then let the pussy preach  
Then let the pussy preach ,then let the pussy preach  
If you is a p , then let the pussy preach  
Then let the pussy preach ,then let the pussy preach
