So good, champion, born to live
I keep my head up, stay away from the busters
Shout out to my northside niggas, we some real
hustlers
Far away from home, but I got it covered
Do one time, know she love it
Bank account over flooded
I want what I want man, fuck your budget
Out with my team finna running
The world is ours, from morning to evening
Now congratulations, take a bow
Come in your city and shush it down

Oh no, you ain't never see a thing like this before
You ain't never seen it, seen it
Oh no, you ain't never see a thing like this before
You ain't never seen it, seen it
Oh no, you ain't never see a thing like this before
You ain't never seen it, seen it
Oh no, you ain't never seen a thing like this before
You ain't never seen it, seen it

I'm on a mission for dough nigga
Side stepping these hoes though
You all know I get dope spit
Dope beats, dope features
Give a fuck about new sneakers
Need a crib with all the new features
You need class, call the teacher
Me and her now, we ain't speaking
She talks too much, her mouth leaking
She need save, call the deacon
He could pray for you might save your soul
He might change proolly home boy
I'm outdoors like 10 below
Back home but it's 80 here
Just so we clear, I'm in a different zone
Don't call my phone, just leave me alone

Oh no, you ain't never see a thing like this before
You ain't never seen it, seen it
Oh no, you ain't never see a thing like this before
You ain't never seen it, seen it
Oh no, you ain't never see a thing like this before
You ain't never seen it, seen it
Oh no, you ain't never seen a thing like this before
You ain't never seen it, seen it

It's a first time for everything
She with a king, blowing heavy green
Once she get a taste of izm, she hope to dream I never
leave
Anticipation, for a pimp, got her breathing out heavily
She got a man but she a simp
He a trick, got paid to fifth
Just hate when she with a pimp
He don't know what his purpose is
My job to make her come
Your job's about purchases
Your job's to pay the rent
Mine is to stay a pimp
You could learn a lot from G
My mac-ing game is Socrates, charge

Oh no, you ain't never see a thing like this before
You ain't never seen it, seen it
Oh no, you ain't never see a thing like this before
You ain't never seen it, seen it
Oh no, you ain't never see a thing like this before
You ain't never seen it, seen it
Oh no, you ain't never seen a thing like this before
You ain't never seen it, seen it.
