Hey baby, you know I haven't forgotten about you.

You know I always dream and think that were in the
same place too
Damn it's just not the same without you
I need your touch

At midnight we went out with friends and did
streetfights
That night we hung out a lot
Then a little later you walked me home and you gave
me a kiss on the lips
And I fell in love

Chorus:
Baby we were like lovers in a million
Im so glad were more than friends
I can't love a guy more than like I love you
But ever since you left
I wont forget about you

One day we were dancing
Dancing, yeah baby
we were like lovebirds
just doing crazy stuff
But, then you had something important to tell me
I broke down and cried
I couldnt believe you had to go
Then you just left me there

Baby we were like lovers in a million
Im so glad were more than friends
I can't love a guy more than like I love you
But ever since you left
I wont forget about you

Boy, it was so sad thinkin about you every night
I couldnt do anything but bring tears of misery
Baby when will you come back to me?
I don't know where you went
But i thought we were more

Than friends (Ooh baby!!!)

Baby we were like lovers in a million
Im so glad were more than friends
I can't love a guy more than like I love you
But ever since you left
I wont forget about you

Baby we were like lovers in a million
Im so glad were more than friends
I can't love a guy more than like I love you
But ever since you left
I wont forget about you

Fades Out
