Ooh

Yeahâ€¦..Better Get it right

Chorus:

Better get it right, don't wanna be your part time lover  
Better get it right, if you want my love for sure  
Better get it right, don't wanna be another number  
Cuz you and me go together boy

You know I make it right for you  
Because I simply adore you  
I got your back you notice that  
I holding you down for you  
I'm always here when you need me  
I give the best to my baby  
I get it right I want it right  
Baby can you feel me

Bridge:

I really wanna be your only  
I'm not just trying to be your homie  
And you could be the one to hold me  
When I'm lonely inside yeah  
And you could be the one to touch me  
And you could be the one to love me  
And you could be the one to kiss me  
Get it right yeahhh

Chorus

Better get it right, don't wanna be your part time lover  
Better get it right, if you want my love for sure  
Better get it right, don't wanna be another number  
Cuz you and me go together boy

I give you all of my sweetness  
It's sad to you say you're my weakness  
I give it up all that I have cuz everything is for you  
If I could be the only girl we can get it right

I'm telling you boy right now  
Cuz let me be the one

Chorus

Better get it right (Try to get it right),  
Don't wanna be your part time lover (Yeah)  
Better get it right (Try to get it right),  
If you want my love for sure (Ya heard)  
Better get it right (Yeah),  
Don't wanna be another number  
Cuz you and me go together boy  
Rap-  
Where saying that we got issues  
Cuz I make pimp moves  
And I break your heart  
You need tissues  
Cuz I make you cry  
And I know you try  
You say bye bye  
I can't lie I die  
And now my situation  
Up in the L I can pop fly  
Should you let go or  
Should you hold on  
One day I promise I'ma put a smile on your face  
I left the choice of my cologne on your pillow case  
You want attention I gotta get money  
In addition your broke heart need fixing  
But you don't superwoman with x-ray vision  
Look inside me and see my mission you want to get it  
right

Bridge:

I really wanna be your only  
I'm not just trying to be your homie  
And you could be the one to hold me  
When I'm lonely inside yeah  
And you could be the one to touch me  
And you could be the one to love me  
And you could be the one to kiss me  
Get it right yeahhh

Chorus

Better get it right, don't wanna be your part time lover  
Better get it right, if you want my love for sure  
Better get it right, don't wanna be another number  
Cuz you and me go together boy
