"Enemy Of Fun"

Visit "[Enemy Of Fun](#)" on MotoLyrics.com

Everytime we see and hello to the stranger
We would have a reason to saying goodbye
Every single moment we screw our own reality
We have to realize that we'll gonna die someday

Everybody hates about unhappiness
Some people used to live in emptiness
Without love, and lack of freedom
Without friends, only with an enemy of fun

We can't save the dream without a vision of future
or to reject the opportunity of a lifetime
We just wanna have fun even though its selfish
and all we gotta do is nothing, its worst than useless...

We don't even have a time to enjoy this reality and get
more fun
We also don't need an advice from the enemy of fun
