### "Kiss Me Again"

You got me where you want me  
but, I ain't all there.  
my head is gone, my brain is fried,  
'nd I'm standing right here.

You can touch me if you want to, oh  
I don't really care  
But I have ruined everything that I ever loved.

I guess we have to play  
the cards we've been dealt.  
And I guess I got nothing,  
but whatever happens, happens...  
'cause my life is falling apart,  
Or is it getting better?- I don't know.

Well you can kiss me again if you want,  
I don't mind.  
Well you can kiss me again if you want,  
oh that'd be fine.
