(Intro)

Silence—I don't want to hear your shit.  
Patience—just wait a little bit.  
Don't cry—your tears mean nothing.  
Help me—I'm looking for something.  
Bleeding—I sink my teeth in.  
Divine—my love of your crimson.  
Nectar—it courses through me.  
Your blood—it's like ecstasy.

My blood, it courses with bitterness.  
You're blinding me with your innocence.  
Your love for me is so unreal.  
Tell me honey how do you feel.  
Look at me with those devil eyes.  
Sink your teeth in 'cause I can't die.  
Stay with me for eternity.  
I love you sweetie, sink your teeth into me.

(Chorus)

A rush of fire courses through my veins.  
Come here baby blow out my brains.  
Take my blood as an offering.  
Have a taste and feel the sting.  
A rush of fire courses through my veins.  
Come here baby blow out my brains.  
Take my blood as an offering.  
Darling, don't fear me for the evil I sing.

Sink your teeth in and open up a vein.  
The pleasure of it all burns in your brain.  
Their crimson red nectar sends forth-new knowledge.  
Admire your prey and see what you've accomplished.  
Learn the human complexity.  
Save them from the wretched evils they breed.  
The morbid self-loathing and the selfish greed,  
Don't feel sorry, you have set them free.

Chorus

Our morbid love affair keeps the happiness.  
It's better than living in loneliness.

Eternity is too long to bear.  
At least I know that you are there.  
Without you by my side I would fall to flames.  
Feeding on the blood of the people IÂ’ve slain.  
Never fear darling, you are now undead.  
Lurking in the shadows, all the fear youÂ’ll send.

Chorus x2
