I don't feel the need to dance across your TV screen  
I don't feel the need to take my clothes off to get big  
And I'm not one of those who will be bought  
Gold regardless I do what I want

Here I am I'm not hiding this is me hot as lightning  
There's no need to show you my things you can see  
I'm hot as lightening

I don't feel the need to strip down to the final thread  
I don't see the need to have fun by going to bed  
And I'm not one of those who will be taught  
To live the wild life and you know what I'm not bored

Here I am I'm not hiding this is me hot as lightning  
There's no need to show you my things you can see  
I'm hot as lightning

Here I am I'm not hiding this is me hot as lightning  
Here I am I'm not hiding this is me hot as lightning  
Here I am I'm not hiding this is me hot as lightning  
There's no need to show you my things  
You can see I'm hot as lightning

Here I am I'm not hiding this is me hot as lightning  
There's no need to show you my things  
You can see I'm hot as lightning
