

Kowalski **"Magicians"**

The end, standstill, deadly storm
trapped in silence, cosmic silence
the neutron bang
We are the survivors, the final solution
standing in the spotlight, like or not
we are grey
Waiting, waiting, for something to happen
we fool ourselves that we are existing
we are magicians
Crazy dreams of armageddon
we are the last - die ersten
chaos - die Zukunft, hurra!
Life and death are one and the same
we are pushing hell into heaven
we are magicians
Deranged dreams of armageddon
we are the last - die ersten
the chaos - die Zukunft, hurra!
