I've been goin' a thousand ways
Choked a hundred hearts in half as many days

Oh no, I think so

And I get so lost inside this city
You ugly girls all look so pretty, it's true
What am I supposed to do?

I still got you waitin'

Look out your window

What do you see?

You don't see me

You're a pretty little flower

I'm a busy little bee

Honey, that's all you need to see

I can take you for an hour

But then I'm gonna leave

Honey I know you'll wait for me

Laaadadadadaaa

You're all alone but you understand
That we're too young to start making plans agreein'

Monogamy's not a part of me

And I know my line and is just a sin

But I swear to you I'm gonna do it again

I'm not making any friends

I just wanted you to wait

There out your window

What do you see?

You don't see me

Cause you're a pretty little flower

But I'm a busy little bee

Honey, that's all you need to see

I can take you for an hour
Baby then I'm gonna leave
Honey I know you'll wait for me

Laaadadadadaaaa ladadadaadadadadaaaa

Pulled out your picture the other day
(Oh isn't that sweet)
You didn't have that much to say
(Cause it wasn't even me)
Cause I know that you said
I'm better off on my own and I'm better off dead

I just want you there to wait
Look out your window
What do you see?
You don't see me

Come on, come on, come on
Pretty little flower
I'm a busy little bee
Honey that's all you need to see
I can take you for an hour
Maybe two or maybe three
Honey, I know you'll wait for me

Laaadadadadaaaa ladadadaadadadadaaaa

Honey, that's all you had to
