Spin around tell me what to say  
Break down and no other way  
What is it, is this it  
This is it

Back to, I never knew your name  
Stick through soon after the rain  
She shines, how she shines  
This is it

And shadows blend one last time (save those kisses)  
Your picture speaks on this time (eyelash wishes)

Cause I been up 3 days  
Awake awake  
2 more weeks  
And I  
The world still turns  
What makes sense  
Stretch this song to a fever cadence  
Up 3 days  
Awake awake  
2 more weeks  
And I  
And all things close all I wish  
Never change these distances

Green eyes everything I see  
Green skies if left up to me  
And I know, and she knows  
This is it

And shadows blend one last time (save those kisses)  
Your picture speaks on this time (eyelash wishes)

Cause I've been up 3 days  
Awake awake  
2 more weeks  
And I  
The world still turns  
What makes sense

Stretch this song to a fever cadence  
Up 3 days  
Awake awake  
2 more weeks  
And I  
And all things close all I wish  
Never change these distances

Just be brave  
Just listen to me  
Your heart gives mine reason to beat  
Now

Cause I've been up 3 days  
Awake awake  
2 more weeks  
And I'm turning to fade  
The world still turns  
What makes sense  
Stretch this song to a fever cadence  
Up 3 days  
Awake awake  
2 more weeks  
And I'm turning to fade  
And all things close, all I wish  
Never change these distances

And shadows blend one last time (save those kisses)  
Your picture speaks on this time (eyelash wishes)
