(Verse 1)

Ever since the day you went away  
and left me lonely and cold  
my life just hasn't been the same  
oh baby no  
when I looked into your eyes  
the moment that I let you go  
I just broke down  
Baby if I ever get the chance to be with you again  
I will sacrifice  
cause the feeling that I  
feel with in no other man  
would never make me feel so right  
It's nice to smile  
when I get your phone call at night  
but I rather have you here with me right next to me  
i miss it when you hold me tight

Chorus

I got to let you know i feel so weak without your touch  
I never thought that i could ever love a man so much  
I got to let you know i think that we are destiny  
For you i'd cross the world  
for you i'll do anything  
that's right baby  
i'm goin crazy  
i need to be your lady  
i've been thinkin lately  
that you and me  
yes, we can make it  
just ride with me and roll with me  
i'm in love with you baby  
that's right baby  
i'm goin crazy  
need to be your lady  
i've been thinkin lately  
that you and me  
yes, we can make it  
just ride with me and roll with me  
i'm in love with you baby

(Verse 2)

Break it down now  
i'll tell you what i feel  
from the moment that i met you  
it's been so damn real  
My heart seems to skip another beat  
every time we speak  
can't believe i feel so weak.  
Tell me that you need me  
and you want me  
and you miss me and you love me  
i'm your lady  
i'll be around waitin for you  
put it down be the woman for you  
I'm fallin' so deep for you  
I'm crazy over you i'm callin  
Callin out to you what am i gonna do  
it's true no frontin'  
It's you aint no other  
i can no longer go on without you  
I'll just break down(down)

Chorus

I got to let you know i feel so weak without your touch  
I never thought that i could ever love a man so much  
I got to let you know i think that we are destiny  
For you i'd cross the world  
for you i'll do anything  
that's right baby  
i'm goin crazy  
i need to be yo lady  
i've been thinkin lately  
that you and me  
yes, we can make it  
just ride with me and roll with me  
i'm in love with you baby  
thats right baby  
i'm goin crazy  
need to be yo lady  
i've been thinkin lately  
that you and me  
yes, we can make it  
just ride with me and roll with me  
i'm in love with you baby

Oh,oh crazy baby lately
