I don't see the way  
The way you see  
Or feel the way you're feeling  
But I can see how you look  
And I can feel how your skin feels

Uh-Yeah-Oooh-Yeah!  
Uh-Yeah-Oooh-Yeah!  
Uh-Yeah-Oooh-Yeah!  
That's what I love

I pressed  
My ear  
Your chest  
I couldn't hear a heartbeat  
Because you're cold  
Uh-oh-oooh-whoa-oh!

Bright hot nights  
The soft, soft morning light  
And you, my cool, cool ice cube girl  
You've lost every ounce of special magic glow  
I don't know where the hell'd our lovin' feelin' go?

You were always my favorite color  
But now the color has stained my shirt  
My ears are bloody bleeding  
Turn the closed captions on

Get out before I have the chance to change my mind  
Don't wanna see you back here a second time  
Say you wanna try to light the flames  
Won't never ever be the same

I'm not in love with you  
I'm in love with what we do  
I'm not in love with you  
I'm in love with what we do
