When Lenin was little
All the birds in the forest were singin' "Man, this is it!"
But now that he's older
All the sailors in the heaver are screamin' "Abandon
Ship!"

I know it can't be right
I know it can't be right
But I just smile instead
of repeating what I said
In my head

When Lenin was little
dressed up like a vampire on All-Hallow's Eve
All the saints up in heaven
Were look down at the leaves fallin' from the trees
I know it can't be rightâ€

Daddy, Daddy, please save the world from the
government
Daddy, Daddy, please save my soul from my own
judgement
Daddy, Daddy, please send me a heart that isn't made
of cement
'cause the money's all been spent
