### "Hang On In There With It"

We're in this world but not of it,  
It's destiny we must accept it.  
But we know, where to go

It gets so hard to hang on in there,  
When there is so much temptation  
Love For Sure Will Endure  
My mind is made up, My mind is made up

Even if it costs my life,  
I can't turn back, I must fight  
To the end, I can win

Hang on in there with it (I won't give up I will just)  
Hang on in there with it (I won't give up)

My mind is made up (To Go all the way)  
My mind is made up to...

Hang on in there with it  
Hang on in there with it
