### "Bring On, Bring On"

What could I do different?  
It makes one sober to think  
In an age of illusion  
It's hard to know when to stop  
How could I live indifferent  
Believing in time and fate  
As long as I have a witness  
My name is not at stake

*[Chorus]*

Bring on this flowering  
Bring on, Bring on  
Bring on this flowering  
Bring on thou words cannot describe  
It's hard waiting for heaven  
May your song keep you alive

*[Chorus]*

And on the day I said good-bye  
My drowning tear catches a light  
Like the gift of sight  
The baby's eye, darkness into light  
I can rest my soul and  
Walk in the light  
I'm positively spring time  
The gift of sight  
The baby's eye  
Darkness into light
