Dirty hair halo, there you go
Here I am, wonder in my eyes, see
Dirty hair halo, where you go
Tell me where you have been
Lost in sad silver skies

I cry, why
Romance of a downfall
Memory like a waterfall
Feeling like I've never lived before
Leading life takes two to soar
It's not happening to me

Dirty hair halo, never knows
Thinks out loud, and I just have to smile inside
Dirty hair halo, always knows
Never cheats, not proud
Matter of fact, she is just fine

Many times
Romance of her downfall
Memory like a waterfall
Feeling like I've never lived before
Leading life takes two to soar
It's not happening to me
