#### **"Good Morning Captain"**

Well there's a ruckus on the levee  
Unruly crowd on the courthouse steps  
And if I make it till Sunday  
I'm sho'nuff gonna ask the good Lord for help  
With a moutfull of salt I try to explain  
If money was sand I couldn't hold one grain  
I feel like a thief that knows he's been framed  
For leaving the watch but stealing the chain

Good morning, captain  
I wish there was another way  
But my baby is wantin  
Me to roll around in her bed all day

Well the late nights got me reeling  
Spillin out the bottle right into the next day  
Got a funny little feeling gonna be like this until my  
dying day  
There's mud in my eye but I can still see  
Everybody in town is tryin to murder me  
If they don't get me s'pose the hangman will  
I better think twice about making this deal

Good morning, captain  
I wish there was another way  
But my baby is wantin  
Me to roll around in her bed all day

Magnolia, magnolia  
Let me rest under the shade of your leaves

Good morning, captain  
I wish there was another way  
But my baby is wantin  
Me to roll around in her bed all day
