Written by: R. Robinson & C. Robinson

Headaches, heartaches
windfalls and pitfalls
They pay what they pay

Car crash, talk trash
Bloodbaths and witchcraft
If that's what you see

How can I make somethin' so wrong somethin' so right
How can I make somethin' so wrong somethin' so right

Shipwreck, lifevest
You swim to shore
Or you sink away
Mistake, bad take
Just spit it out
And it goes away

How can I make somethin' so wrong somethin' so right
How can I make somethin' so wrong somethin' so right

How can I make somethin' so wrong somethin' so right
How can I make somethin' so wrong somethin' so right
