Written by: R. Robinson & C. Robinson

You know I never wanted it to be like this  
I've been lost in sandstorms  
Left naked by your kiss  
In the face of God  
Of God, oh and his poison leaves  
The way it feels right now oh yeah  
I really want it to believe

So then you look on me with sad black eyes  
Well I heard it coming yeah  
And you know I lost my smile  
In a January that never ends  
The gold affections of my past  
Are now just rusty tin, yeah

Well I really want to see you again  
I miss my lover, as my best friend  
Yeah baby I , I want you right by my side  
With you baby, I spend all my time

They said they'd write a book someday  
About a boy who'd always strayed  
And a girl who took the fog away  
Man, if it could be that way  
Then I would come without delay  
Yes, with a smile on my face  
And I would not be lost for long  
If I could be your title song

So every now and then I get sad, yes it's true  
Well you've known me long enough now baby its  
nothing new  
Like when I feeling bad  
I feel underwater I feel blue  
And you know the only thing I ask from you baby  
Well, is can I swim to you

Well I really want to begin this again  
Cause I miss you as my lover, I miss my best friend

Oh baby why I just want you right by my side  
Yeah cause with you girl I would spend all my time

Said we'd write a book someday  
About a boy who'd always strayed  
And a girl who took the fog away  
Man, if it could be that way  
Then I would come without delay  
With a smile on my face  
And I would not be lost for long  
And you could be my title song  
Yeah

Well Baby, I, yes I want to begin this again  
Well cause I miss my lover, and yes I miss my best  
friend  
I'm here and you know I want you right by my side  
Down with you baby, I'll spend all my time

We said we'd write a book someday  
About a boy who'd always strayed  
A girl who took the fog away  
Man, if it could be that way  
I would come without delay  
With a smile upon my face  
And I would not be lost for long  
And you could be my title song  
Well I won't be lost for long  
And you can be my title song  
My title song
