It turned ugly that day
Tried to hide my heart
And run away
Will it always be this way
I can't see the future
No way to say

You've beautiful but you've flawed
You've desperate but you've strong
You've lonely but never alone
You've empty, like Wyoming and me

It's the nature of things
Tried to leave a little
Of what you bring
Let's all join hands
And form a ring
Cross your fingers
Then we will sing

You've beautiful but you've flawed
You've desperate but you've strong
You've lonely but never alone
And you've empty, like Wyoming and me

You've beautiful but you've flawed
You've desperate but you've strong
You've lonely but never alone
An you've empty, like Wyoming and me

Wyoming and me
Wyoming and me
Wyoming and me
Wyoming and me
