You feel like dancing
an' sweet romancing
and you're advancing your plans to me.

Your invitation
caused some elation
but all you're doing now is wait and see.

Don't think that I am
an dandelion

some flower tryin' to please the world.

There's no sensation
in that creation;
that's why some flowers feel like bein' girls.

You gotta move
move
move
baby
move your bones
to be the guy who'll make me try.
You gotta use
use
use
maybe use your bones - -
the way you are won't take you far tonight.
why should I move
move
move
baby
move my bones

why should I move and use my bones tonight ?

You are complainig
that I'm refrainig
from all the trainig I'd get from you.

How can you please me
or even tease me
when sitting there is all you care to do ?

You say my pleasure
is made to measure
when we're together your special way.

But lack of action
is no attraction
to make me play the games that people play.

You gotta move
move
move
baby
move your bones
to be the guy
who'll make me try.
