I was waiting for somebody  
I thought that she could not be you  
But something was talking to me  
Turned me onto something new

I give my heart to Lady Midnight  
Soon enough I'm in her sway  
But the world is cold and lonely  
It needs each of us  
It grabs hold of us

No, no, waiting by the roadside, no  
No, no, waiting by the roadside, no  
No, no, waiting by the roadside, no  
Sure is not the only way to go

But all those wretched cold inventions  
Brought about by mindless men  
Mindless men with false intentions  
I hope that I'm not one of them

We make our way into the light  
Where something has us in it's sway  
(Innovations on the way)  
For the world is cold and lonely  
(Innovations on the way)  
It needs both of us  
It grabs hold of us

No, no, waiting by the roadside, no  
No, no, waiting by the roadside, no  
No, no, waiting by the roadside, no  
Sure is not the only way to go

The modern age is just a rumor  
Please do not lose your sense of humor  
It will carry us, it will carry us
