"Explode"

Ease your trouble
we'll pay them double
not to look at you for a while
And you rely on
what you get high on
and you last just as long as it serves you

Explode or implode
explode or implode
we will take care of it
yes, we will carry you

'cause you're deserted
what's good, you hurt it
and it kills you it keeps you alive
so give it up
in a world of puppets
It's a shame what they do to us all
can we do anything for you now ?
