She's a model and she's looking good
I'd like to take her to my place
She's working coolly, she won't be touched by anyone
Though, before the camera she shows what she can do

In the night club she's drinking only Champagne
And has checked out every man
In the floodlight her young smiles glitter
She's looking good, and beauty will be paid

She exposes herself for consumer products
And is being seen by millions of eyes
Her new cover is simply gorgeous
I must see her again, I know she's made it
