Trying to get me to say things I don't mean
Just so you can make us part of the scene
You can accuse me of anything
I'm not gonna change a thing

You can't make me, you can't make me
You, you can run, you can hide
Pretend you're not by my side

You can't make me, tame me, own me
You're too blind to get to know me
You can't make me, tame me, own me
I don't like who you want me to be

Tell me who I was and who I'll be
I won't follow this timeline you made for me
You see there's no right or wrong, no way to do this
How exactly do you want me to prove this?

You can't make me, you can't make me
You, you can run, you can hide
Pretend you're not by my side

You can't make me, tame me, own me
You're too blind to get to know me
You can't make me, tame me, own me
I don't like who you want me to be

You're not worth it {No, no, no}
I don't want to make us fit {no, no, no}
Just stop wasting my time

You can't make me, tame me, own me
You're too blind to get to know me
You can't make me, tame me, own me
I don't like who you want me to be
