Pulled up into my girls place
Drop top so all the guys can see
Downtown is where we were heading
All out that's how we party
We stepped into the club
The temperatures rising high (the temperatures rising high)
Next thing I knew I was
Eyed by this fine looking guy
I caught you staring at me
I caught you
Scared but wanting
Boy make your move
Cuz Im longing for tonight
Your body belongs to me
I caught you
We rolled out to the after party
Peeled out right as we left the scene
Uptown is where we were heading
Penthouse where the night keeps going
We stepped in to the room
People were everywhere (people were everywhere)
Next thing I knew I saw
Your brown eyes were starting to stare
(chorus 2x)
(bridge)
Just wanna dance into the night
Wanna feel and hold you tight
So baby come and dance on me
Ill show you real ecstasy
(chorus)
